

24 March 20

The City will not be doing cutoffs of water this month, but we are reminding individuals they must keep their accounts up-to-date to keep water service from being interrupted in the future. City Hall is closed to normal business for the next four days (and may be extended) as many people come to City Hall to pay water bills. We have notes on the door to explain alternatives to complete business at City Hall. All services are still operating, but with limited access to the public. City Hall number 706-754-4216.

The playgrounds at Pitts Park are being closed today. You can still enter the Park but should refrain from using the playground equipment.
